

Note:

1. Material: C2680-H, T0.20 × 19.5
2. There should be no distortion on the surface Pressure injury Oxidation phenomenon.
3. Surface burrs should not exceed 0.05mm
4. The unspecified tolerance is ± 0.10mm.
5. The unmarked rounded corners are all R0.2mm.
6. A single product can lift a 30g weight, but cannot lift a 120g weight
